CLIENT INFORMED CONSENT AND DISCLOSURE STATEMENT

Thank you for your interest in including me as part of your pet's veterinary health care team. Our work together will include a shared understanding of compassionate health care goals for your pet. The body work techniques I use are gentle, minimally invasive, and incorporate patient stress reduction.

Like mainstream medicine, alternative therapies have inherent risks, potential complications, and no guarantee of success. Risks are rare and can include complications such as drowsiness, incontinence, infection, broken needles under the skin, needle ingestion, and bleeding.

I authorize Dr. Pamela Dragos to perform alternative therapies on my pet including, but not limited to, acupuncture, laser acupuncture, electroacupuncture, aquapuncture, moxibustion, cold laser therapy, Lacer therapy, herbal therapy, Bengston Energy Healing, Veterinary Medical Manipulation, chiropractic adjustments, PEMF Therapy, Red Light Therapy, and dietary recommendations. I acknowledge that no guarantee has been made to me as to the results that may be obtained.

Products recommended or prescribed are not intended to diagnose, treat, cure, or prevent disease and have not been evaluated by the Food and Drug Administration. Any information provided is not meant to diagnose, treat, cure, or prevent any condition that your pet may have.

Each patient's treatment and results may vary based upon the circumstances, the patient's specific situation, as well as the health care provider's medical judgment, and other variables. Your permission is given to Dr. Pamela Dragos to use your pet's picture(s), name and story for advertising and social media purposes.

For Virtual Consultations, medical information or statements made are not intended for use in or as a substitute for the diagnosis or treatment of any health, behavioral, or physical condition. The information and advice provided is not intended to replace the services of a veterinarian, nor does it constitute a veterinarian-client relationship which is established by an in-person evaluation of the patient. Consultations and herb orders are nonrefundable.
